PANIMALAR ENGINEERING COLLEGE

HIGHER EDUCATION CENTRE

- The Higher education centre focuses on guiding students aspiring to do Master's program to specialize themselves in a particular technology, encouraging them to pursue higher education in India and abroad
- They are counselled, mentored and channelized based on their needs and requirements.
- The centre also focuses on creating awareness among the students about the various opportunities available globally for Indian students with International scholarships.
- The students are updated regularly with the scholarships available and guided on the application process.
- The centre is in constant pursuit to collaborate with foreign universities to establish multilateral knowledge transfer for students and to enhance the need for international relations.

The session provided our students with valuable insights into the latest advancements in Artificial Intelligence and Machine Learning, particularly in the area of gesture-based technologies. Students actively interacted with Dr. Bond, raising thoughtful questions and gaining clarity on real-world applications of AI in emerging domains. The lecture not only broadened their technical knowledge but also motivated them to pursue innovative research ideas and explore higher education opportunities in Australia. The event successfully strengthened our academic connect with Flinders University and opened doors for potential future collaborations.

Study Opportunities in Baden-Württemberg, Germany

Southern Stars Universities, Germany

10/9/2025

The session familiarized students with higher education options across the universities of Baden-Württemberg, a key hub for innovation and technology in Germany. Ms. Betty Samuel elaborated on tuition-free education opportunities, research collaborations, and industrial partnerships. Students were introduced to the strong link between German universities and top global companies. The presentation also provided details on scholarships, internships, and post-study employment options. The event motivated students to explore Germany as a premier destination for higher studies in STEM and applied sciences.

Your Doorway to France

Campus France

29/9/2025

This interactive session introduced students to the wide range of academic and research opportunities available in France. Mr. Ajitkumar elaborated on scholarships, visa processes, and English-taught programs offered by leading French institutions. The discussion highlighted the advantages of learning French and the country's strong global reputation for quality education. Students learned about post-study work rights and industry collaborations in sectors like technology and design. The event encouraged active participation in France's education ecosystem through Campus France initiatives.

International Immersion Programme

GITEX Global 2025

Dubai World Trade Centre, Dubai, UAE

12/10/2025 to 16/10/2025

The Global Immersion Programme exposed students to one of the world's largest technology exhibitions, featuring innovations in AI, robotics, and digital transformation. Participants interacted with entrepreneurs, tech leaders, and investors from various countries. The visit broadened their understanding of international business ecosystems and startup cultures. Students gained practical insights into emerging technologies and their commercial applications. The experience inspired them to think innovatively and explore global career opportunities in the tech industry.
