HIGHLIGHTS OF ACTIVITIES

1. The “Vision for Change: SDG Poster Challenge” was an inspiring platform for students to creatively express their understanding of the United Nations Sustainable Development Goals (SDGs). Participants were encouraged to design posters highlighting pressing global challenges such as climate action, gender equality, clean energy, and sustainable cities, while proposing innovative solutions through art and design.

Poster Designing Competition conducted on 16.09.2025 where students showcased creative posters to raise awareness about SDGs and promote sustainability on campus.

2. DataXscape – Seeds of Change, was an impactful sustainability initiative where **2,000 organic seeds** were distributed to all participants, students, and faculty members. The initiative aimed to promote environmental awareness and encourage everyone to contribute to greener, healthier surroundings. By planting these seeds, participants became active contributors to reforestation, biodiversity, and climate action, embodying the spirit of the Sustainable Development Goals (SDGs) in everyday practice.

DataXscape Hackathon conducted on 21.01.2026, where the 24-hour event included seed ball distribution to promote awareness.

3. TechDivathon 2.0 – EcoSmart Files, was a women-centric Hackathon that combined innovation with sustainability. During the event, jute files were distributed to all participants, students, and faculty coordinators, promoting the use of **Eco-friendly alternatives to plastic files**. This initiative aimed to raise awareness about responsible consumption, environmental responsibility, and sustainable practices, encouraging everyone to contribute to a greener and cleaner campus while supporting the Sustainable Development Goals (SDGs).

TechDivathon 2.0 conducted on 20.02.2026, a 24-hour women Centric hackathon with jute bag distribution to promote sustainability.

4. Reboot Recycling, conducted aimed to promote responsible e-waste management across the department and college campus. E-waste bins were strategically placed by Himmel Exim India Pvt,Ltd to ensure the proper collection and recycling of electronic waste, reducing environmental pollution and fostering sustainable practices. This initiative encouraged students, faculty, and staff to actively participate in climate action, resource conservation, and the promotion of a greener campus, aligning with the Sustainable Development Goals (SDGs). During this event stipend Internship of Rs.10,000/- each month was offered to 4 students by Loopy company.
